# History

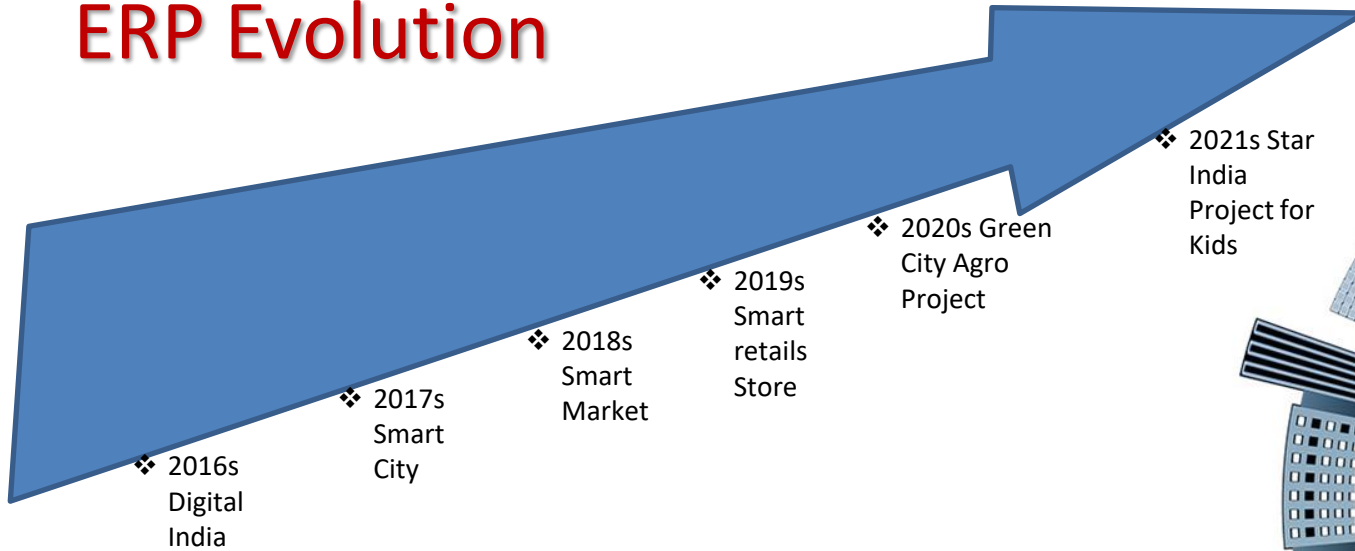

## History of Zoxhins

In 2016, Deepak Singh incorporated Zoxhins, He chose the location Seattle because of technical talent as Microsoft is located there and Indian government Start a project Digital India. The company begin selling vegetable and fruits in 2016, at which time it begin operational nationally by acquiring of online sellers of vegetable in India. The organization also sold Video games, consumer electronic, home-improvement item, software, games, and toys in additional to other items.

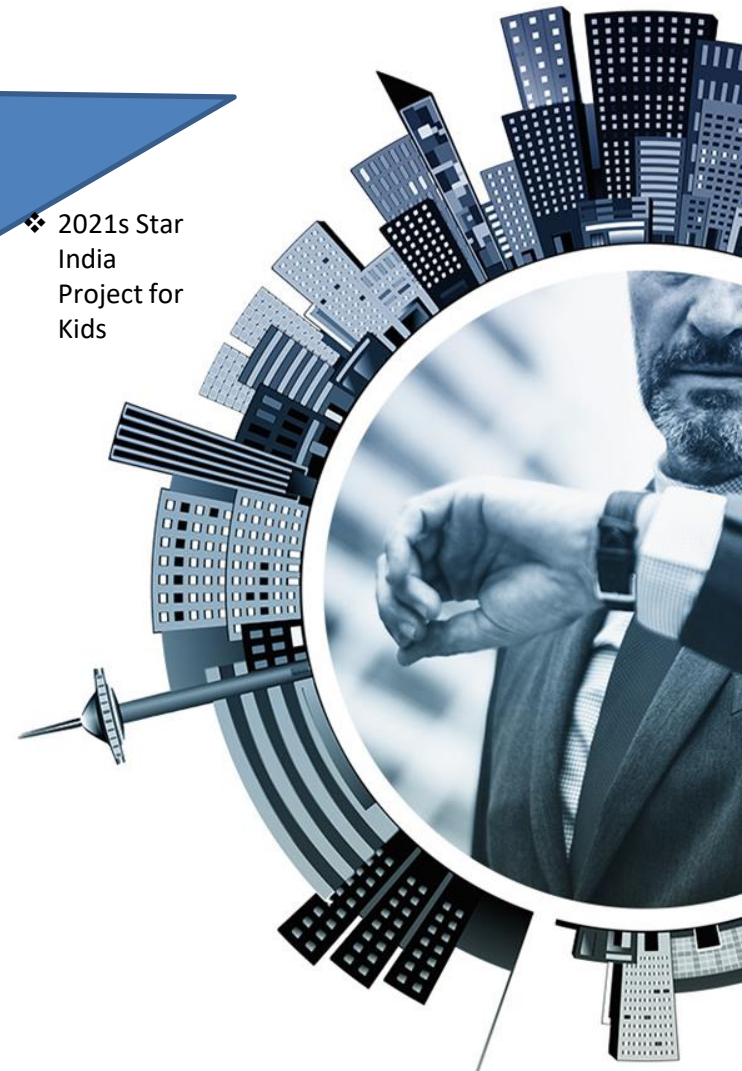

In 2017, the corporation started Zoxhins web services (ZWS). Which provide data on website popularity, Internet traffic pattern and other statistic for marketers and developers for smart city project. In 2018 the company started Subscription based fulfillment by Zoxhins which manage the inventory of individuals and small companies selling belonging through the company internet site in particular local area for smart market project. In 2019-20, Zoxhins innovate Smart offline/online billing software to automate its inventory-management business, connecting whole retails market with local area wholesale market for best hospitality service. In 2021 the corporate started educational development program, which provide technologies based education to kids for Star project of Indian government, this project will change and developed all Indian culture in future till 2036 .

07	ZG Franchisee Business	Franchisee Business	Startup India
08	eG India	Entrepreneurship development program	Startup India

## With These 5 Strategies, Zoxhins Will Dominate Any Market

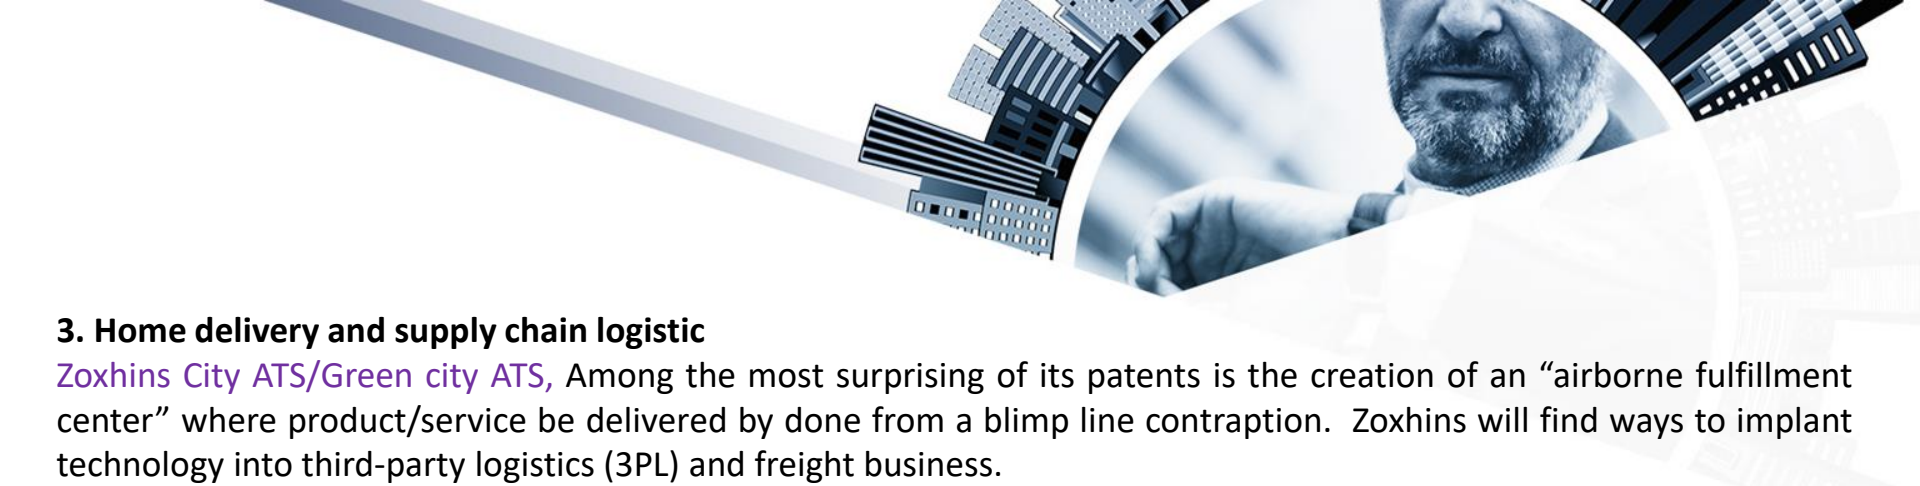

### 1. Ziebp as the hub of the wheel

**Zoxhins Ziebp** (zoxhins Indian electronic business platform), was first framed as an incremental improvement in its value proposition, in the form of subscription sales opportunities without storage expenses like free service. That has since evolved into the linchpin of the zoxhins empire. Deepak Singh claims that ziebp services has 49000+ subscribers, making it the most successful loyalty program of the time. Zoxhins will only magnified its use of prime as a barrier to entry.

### 2. Fuel for small business

**While Zoxhins.com**, (zone oriented cross hands interconnected new screening software of business) consumer business gets all the buzz, its foray into business-to-business is equally disruptive. It is believed that zoxhins aspire to dominate services like warehouse digitally, logistic, infrastructure, and cashless checkout.

For small business, Zoxhins is providing a novel offering with **Launchpad**, a service **design for startup**. One would expect Zoxhins to offer more **finance to new ventures** which will augment various **e-commerce services**.

### 3. Home delivery and supply chain logistic

Zoxhins City ATS/Green city ATS, Among the most surprising of its patents is the creation of an “airborne fulfillment center” where product/service be delivered by done from a blimp line contraption. Zoxhins will find ways to implant technology into third-party logistics (3PL) and freight business.

Zoxhins is already putting pressure on the supply chains of its competitors, setting expectations that product delivered within 30 minute. E-commerce providers are building networks in efforts satisfy coast-to-coast demand.

### 4. Artificial intelligence

Zoxhins (AI) Service give an special experience to consumer to search same product variety and prize during shopping.

### 5. Healthcare and education

Zoxhins appears to enter education, healthcare, perhaps beginning with the bold move into education and health service. With education is an industry it could distribute quickly. It has also joined forces with credential education and other service distributor in an afford to extend reach in education device to schools and others.

14. Star India
15. Entrepreneurship Development program

# Our massive plan!

- I understand technology can be more expensive but it is very helpful to live longer life without stress so our partner has big plan to convert our market into smart market and Dreamit society through Digital India project. Also educating the new generation about IT and service industries. Just as smart phones help us gather new information from around the world. The same Smart Market and Dreamit Society will help us to improve our business strategies and move easily all over the world.

# What's Up next

- I am grateful to my Government of India especially to our honorable Prime Minister Shri Narendra Modi ji, who promoted this technology in India as Digital India campaign and helped us to think of such project,
- And at the same time I am also grateful to the institutions of India that support this platform.
- If we want to change our GDP and make ourselves smartest and make our child intelligent and secure his life in future in this world then we should promote similar project in our country. Which has the potential to generate not only employment but thousands type of business, yes we will be successful one day when foreigners come to India for jobs and we don't have to go abroad for jobs, and we can do this just in a year because We have govt. support and technology and we are a smart Indian.

A decorative graphic in the top right corner of the slide. It features a stylized city skyline with various building shapes in shades of blue and grey. Overlaid on this is a circular inset containing a close-up, blue-toned photograph of a man's face, specifically his eyes, nose, and beard. The man appears to be looking down or at something out of frame.

**Thanks**
